Bug Id	Test Case Id	Description	Expected Result	Actual Result	Priority	Severity
Bug_01	Tc_003	Registration was successful despite entering an invalid mobile number (1234567890). Expected validation messages such as "Invalid Mobile No." were not shown.	Error messages should display for invalid mobile number.	Registration was successful without any error messages.	High	Major
Bug_02	Tc_005	The system allowed registration with an invalid name (N). The name should not have been accepted, and a validation error should have been triggered.	"Put a valid name" error message should be shown.	Name was submitted successfully without any error message.	High	Major
Bug_03	Tc-006	The system accepted numeric values (7689) in the name field during registration. Validation should have restricted such entries.	Error message: "Name cannot contain numbers. Please enter a valid name."	Name was successfully submitted without any error message.	High	Major
Bug_04	Tc_009	The system accepted an invalid fake email format (nashrah980@https). The expected validation message did not appear.	Error message: "This E-mail ID is not valid."	Email was successfully submitted without any error message.	High	Major
Bug_05	Tc-010	The system allowed registration using an already registered email and mobile number, without displaying the appropriate error message.	Error message: "Email ID or mobile number is already registered."	No error message was displayed, allowing the registration to proceed.	High	Critical
Bug_06	Tc_011	The user was not able to log in despite providing valid credentials. The error message stated "E-mail not found. Please check your email or register," though the email was already registered.	User should be successfully logged in and redirected to the homepage	Login failed, and an incorrect error message was displayed.	High	Critical
Bug_07	Tc_012	No password reset link was sent to the user's email after clicking the "Forgot Password" button.	A password reset link should be sent to the registered email, with a confirmation message displayed on the screen.	No password reset link was received.	High	Critical
Bug_08	Tc_016	The "Watch Trailer" button is only visible for four movies, but it should be visible for all movies that have trailers.	The "Watch Trailer" button should be clearly visible for all movies with available trailers.	The button is visible for only a few movies.	Medium	Moderate
Bug_09	Tc_019	The search button on the header did not work as expected. When a movie name was entered into the search bar, no search results were displayed.	The search button should function properly, and relevant search results should be displayed when a movie name is entered.	The search button did not work, and no results were displayed.	High	Major

Bug_10	Tc_027	The quick links (Home, Movies, Events, Contact) in the footer should navigate to their respective sections but did not work as expected.	Each quick link should navigate to the corresponding section (Home, Movies, Events, Contact) without any errors	The links did not navigate to the corresponding sections.	High	Major
Bug_11	Tc_028	The social media icons (Facebook, Twitter, Instagram) in the footer should open their respective pages but did not function as expected	Each social media icon should open the corresponding platform in a new tab when clicked.	The icons did not open their respective social media pages in a new tab.	Medium	Major
Bug_12	Tc_030	The "Discover More" button is expected to redirect users to the corresponding page or section, but it did not function as intended.	Clicking the "Discover More" button should redirect the user to the relevant section or page.	The user did not get redirected to the corresponding page.	Medium	Major
Bug_13	Tc_031	The "Get Ticket" button does not redirect the user to the ticket booking page for the selected movie.	The user should be redirected to the ticket booking page upon clicking the "Get Ticket" button.	The user is not redirected to the ticket booking page.	High	Major
Bug_14	Tc_033	The "Add to Watchlist" button is not visible for each movie on the movie listing or details page.	The "Add to Watchlist" button should be visible for every movie.	The button is missing for all movies.	High	Major
Bug_15	Tc_034	The "Submit Review" option is not visible on the movie details page.	The "Submit Review" option should be clearly visible on the movie details page.	The "Submit Review" option is not displayed.	High	Major
Bug_16	TC_035	The genre filter option list is not visible on the movie listing page.	The genre filter should be clearly visible on the movies listing page.	The genre filter is missing.	High	Major
